

TEAM INVOLVEMENT IN DEMONSTRATION

Date	30 sep 2026
Team ID	SWTID-2026-7796
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the active participation and roles of each team member during the project demonstration. The demonstration covers the automated Standard Laptop procurement workflow implemented using ServiceNow Flow Designer, including Flow creation, Flow assignment, Service Catalog ordering and approval, and Catalog Task creation.

Team Demonstration Participation

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	POORNA LAKSHMI M	Team Leader / Coordinator	Project overview and Flow Designer	Introduces the project, explains the problem statement and objective, and coordinates the demonstration of the Standard Laptop Task flow.	Active
2	Vajitha T	Flow Demonstrator	Milestone 1 – Flow	Demonstrates creation of the Standard Laptop Task flow, Service Catalog trigger, Create Catalog Task action, approval condition, and Hardware assignment.	Active
3	Sneka N	Flow Assignment Demonstrator	Milestone 2 – Flow Assignment	Demonstrates assigning the created Standard Laptop Task flow to the Standard Laptop service catalog item through Process Engine.	Active
4	Kanisiya G	Service Catalog Demonstrator	Milestone 3 – Service Catalog	Demonstrates placing the Standard Laptop order, checking approval, opening the Requested	Active

				Item, and viewing the generated Catalog Task and assigned group.

Team Coordination Notes

Team Leader / Coordinator	POORNA LAKSHMI M
Overall Team Coordination Rating (1-5)	5
Any issues during demo	No major issues were documented in the project reference.
How issues were resolved	The team followed the documented ServiceNow workflow steps for Flow creation, Flow assignment, Service Catalog ordering, approval, and Catalog Task verification.

Demonstration Flow Covered

1. Create the Standard Laptop Task Flow in Flow Designer.
2. Configure the Service Catalog trigger.
3. Create the Catalog Task with the required short description and Hardware assignment group.
4. Assign the flow to the Standard Laptop service catalog item.
5. Place a Standard Laptop order through Service Catalog.
6. Approve the request and open the Requested Item.
7. Verify the generated Catalog Task, updated status, short description, and assigned group.
